

Completion Certificate

For each completed Energy Improvement Project, an Independent Energy Auditor is required to verify that each Energy Improvement Project was properly completed and is operating as intended.

I, the undersigned, hereby certify the following facts and make the following certifications with respect to the Energy Improvement Project described in the attached C-PACE application under the AK C-PACE Program:

1. I am accredited by or belong to a firm with an accreditation from (check at least one):
 - Licensed Professional Engineer who has completed a minimum of 5 ASHRAE Level 2 energy audits for non-residential properties in the preceding 5 years (Individual Certification)
 - Certified Building Energy Assessment Professional (BEAP) (individual certification offered by ASHRAE)
 - Certified Energy Auditor (CEA) (individual certification offered by Association of Energy Engineers)
 - Certified Energy Manager (CEM) (individual certification offered by Association of Energy Engineers)
 - Certified High-Performance Building Design Professional (HBDP) (individual certification offered by ASHRAE)
 - Certified Measurement and Verification Professional (CMVP) (individual certification offered by Association Energy Engineers and Efficiency Valuation Organization)
 - Investor Confidence Project (ICP) Quality Assurance Assessor (firm-based certification)
 - Investor Confidence Project (ICP) Project Developer (firm-based certification)

2. I do not have any conflicting financial interest in the Energy Improvement Project, in that neither I nor any member of my family nor any company that I own or have a financial interest in has any ownership or financial interest in the project, the engineer/contractor, the real property, or its owner; and neither I nor any member of my family nor any company that I own or have a financial interest in has

provided or will provide any products or services for the Energy Improvement Project other than independent third party review.

3. I, or my agent, physically or virtually inspected the site of the Energy Improvement Project on _____ and, based on my inspection, review of construction and commissioning documents made available to me, and witnessing of operations, that the improvements described in the project application have been completed and are operating as intended.
4. The attached project documentation review letter provides details of my findings and conclusions.
